Letter from the Management

To Our Valued Clients,

We wish to confirm that the information given in the following pages truly represents the company as is today.

The policy of the management is to handle every contract as being special, irrelevant of the size, for this purpose, the staff appointed on the contract are always carefully selected. We ensure that they are the most qualified people for the right position, devoted and generous. It is of utmost importance to be generous with the works as this adequately support to deliver a good work.

We always hope and look forward to be of service to you now and in the future!

Samir Rached
Managing Partner

Section I

Introduction

A. General

CIVILCO - Civil Engineering and Contracting Co. W.L.L. was founded in Abu Dhabi, U.A.E. in 1974.

The growth of the Company is marked by the increase in the paid up capital from Dirhams Three Hundred Thousand in the year 1974 to Dirhams Thirty Million. This growth can be attributed to the ability to undertake, successfully execute and complete a variety of projects under the management and supervision of experienced Administrators, Project Managers and Engineers and over 3,000 employees, supported by adequate transport facilities, machinery and equipment.

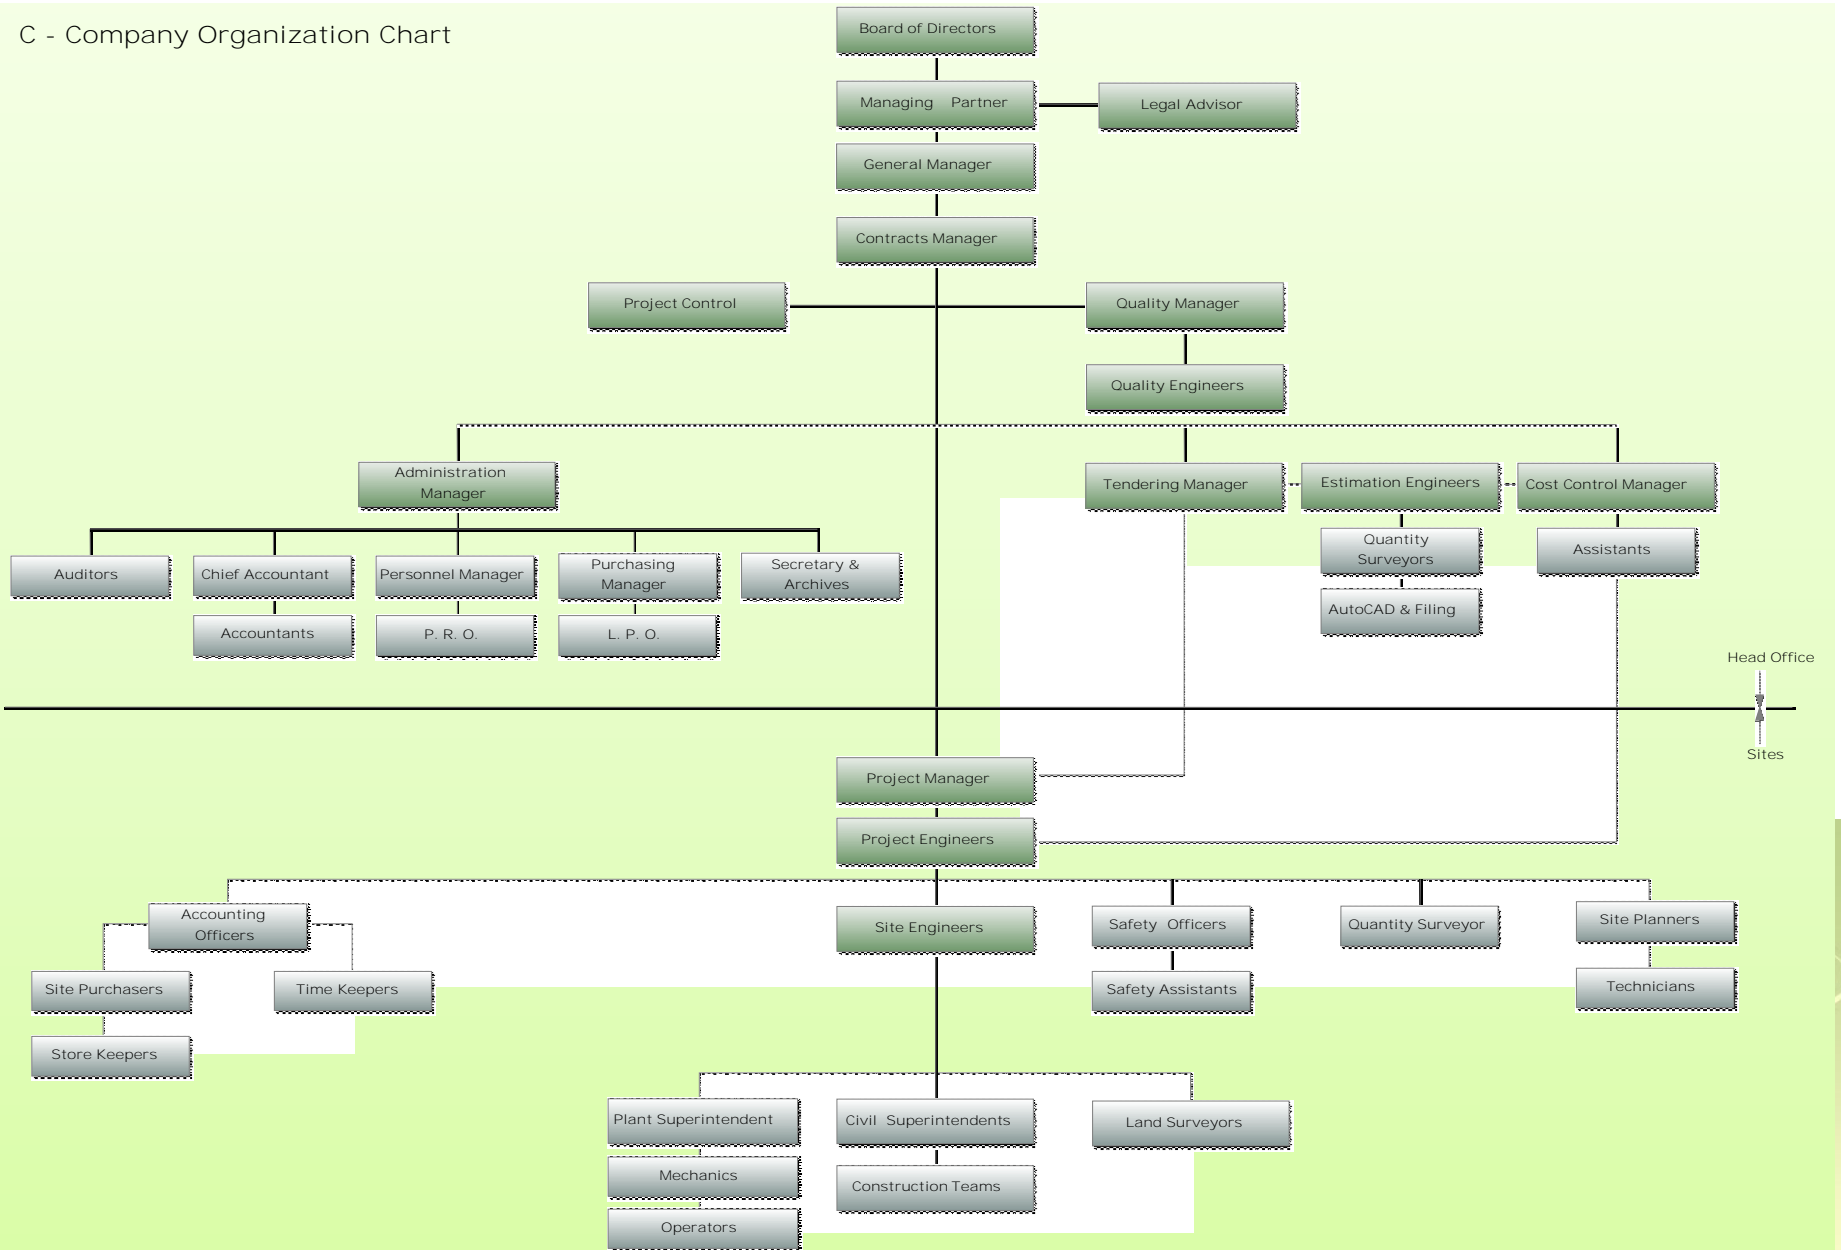

B. Activities and Fields of Experience

The principal activities to date comprise the following type of works:

- Hotel / Residential and Commercial Buildings
- Schools and Hospitals
- Steel Structure, Fabrication and Erection
- Water and Sewerage Pipeline
- Pumping Station, Control Building, Reservoir and Civil Work
- Instrumentation, Electrical and Mechanical Installations
- Treatment Plant

We are confident that the company can acquire experience in new fields within the scope of its work by depending on the experience of present staff, the financial capability of the company and the ability of the management to recruit the suitable new staff.

Section II

Methodology

A. Introduction

As soon as CIVILCO is awarded a contract, the Contracts Manager will commence the selection of the project team. The project team is composed of the most suitable personnel with relevant experiences to the required functions, specialties and expertise.

In case, the required specialized expertise are not available within our company, the recruitment section will be immediately instructed to survey relevant resources to select the right personnel.

B. Project Management

The project team is composed as illustrated on the Organization Chart, the key personnel consists of Project Manager, Construction Manager and Planning Manager and their responsibilities are outlined, as follows:

1. Project Manager is responsible for overall control and support of project execution, he closely monitors the project execution and keep continuous liaison with the Head Office for effective management of the project. He is responsible for planning and controlling all construction activities, eliminate contradictions between various sections and ensure the adequate performance of all site activities and trades. He forecasts labour manpower requirements, allocates manpower, equipment and materials.
2. Construction Manager is responsible for delivering the works on time. He directly supervises the site engineers, surveyors, civil superintendent and the whole construction team. He maintains the staff discipline on site, sets up the project basic criteria, makes major technical decision in coordination with the Owner/Engineer site representative and reviewing project design works.

3. Planning Manager and in coordination with the Project Manager puts down the overall plan for the execution of the project. He, then, reports to the Project Manager and ensures that the status of work complies with the original plan. His duties include but not limited to the following:

- Inform the Project Manager regarding the status of work with respect to the original plan and provide necessary inputs as how to achieve the target schedule.

- Responsible for the timely submittals of cash flow, labour histogram, construction monthly program, monthly progress reports and management resources.

- Responsible for the commencement of works, execution and timely completion of the work trades and to resolve issues on delays and timely completion in conjunction with the Project and Construction Manager.

- Responsible for attending a monthly meeting with the **Consultant's / Client's** representative and when required.

C. Quality Assurance and Control

The project specifications are sacred for CIVILCO staff. Compliance with the specifications and quality of material and standard of furnished works is the most ultimate concern.

For the purpose of achieving this, the project team is supported with a Quality Control Engineer who operates under the direct supervision of the Company Quality Management to ensure adherence to requirements of ISO 9002, which our staff is being trained for. Accordingly, the system adapted by our company follows the Quality Assurance Manual, which is being internationally applied and may summarize the steps as follows:

1. Quality Assurance Manager with the necessary authority and ability is assigned in charge of the department. His job will be to coordinate and monitor the Quality system and to see that prompt and effective action is taken to ensure that requirements of the Quality Assurance are met.

2. All personnel who manage and perform work- affecting quality will be identified and given specific responsibility.
3. Only well trained personnel will be assigned to verify proper performance of work.
4. The Quality System will be reviewed including assessment of results of the internal quality audits.
5. A review schedule will be established and then adjusted on the basis of results and experience gained from previous applications.

The review will reveal, among other things, defects and regularities, suggest improvements, check management effectiveness at all levels and will also ensure that management objectives and methods are achieving the desired results.

D. Safety

As CIVILCO has been working for many years, an extensive knowledge and awareness of safety matters and procedures in our field of construction have been acquired. The following general safety measures are strictly observed and followed in the site:

1. Safety Procedure followed on the Commencement of any Project are:

On large projects a dedicated Safety Officer is appointed on the site. In the case of smaller projects, this will be a Member of the Site Management Team. In all cases, the Site Safety Officer will submit a report directly to the Senior Officer every two weeks. The duties of the Senior Safety Officer are:

- Establish adequate stocks of Personnel Protection Equipment i.e. Boots, Helmets, Overalls, Goggles, Ear Protection, Gloves, etc....
- Establish adequate stocks and locations for first aid equipment.
- Establish and notify Hospital Accident Unit and Doctor.
- Establish in house training procedures and timings.

2. The duties of the Site Safety Officer :

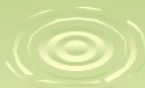

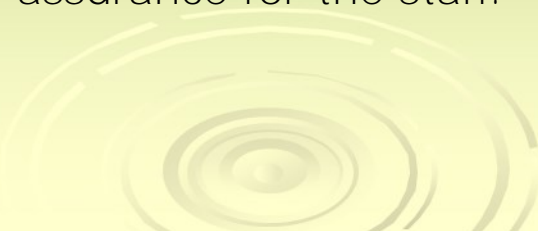

- Ensure that every person coming to work on site, including sub-contractor, undergo basic safety training.
- Ensure that adequate stocks of safety and first aid equipment are maintained.
- Maintain lifting equipment and scaffolding registers.
- Conduct routine and safety audits (Company Standard Format).
- Investigate and report on any accident or incident and investigate any remedial measure.
- Liaise with Senior Safety Officer for improving standards of safety and welfare.

During the last seven years there has not been any major accident on any of our sites and our general standard of safe working practices, safety training and safety measures taken is considered to be satisfactory by all our clients.

3. Safety manuals are made available on every site along with the **company's** reports and pro-forma as follows:

- Daily Safety Inspection Report
- Weekly Inspection Report – All Sites
- Work Action Report – Safety
- Accident Report

4. The company pays full attention to the **"Health Level"** of its employees and the following procedures are followed:

- Conduct general medical check-up for all employees.
 - Conduct periodical check up for all employees.
